Sunrise and sunset will be about 1 hour earlier on **Nov 3, 2024** than the day before.

National BREAST CANCER Awareness Month

Finding **breast cancer** early is key to successful treatment. That's why every October, we come together to raise awareness about the disease and to encourage people to get screened. About one in four breast cancers can be prevented by modifying risk factors and adopting healthier lifestyle choices. The most important lifestyle choices to consider are to quit smoking, exercise regularly, to maintain a healthy weight and to avoid alcohol consumption. Recent studies have shown that maintaining a healthier diet can affect breast cancer risks for women 10, 20 or even 30 years later.

National DOMESTIC VIOLENCE Awareness Month

National Domestic Violence Awareness Month is a time to raise awareness of domestic violence and its impact on individuals and families. Share the [National Domestic Violence Hotline](#) with your community for access to **24/7** tools and support. Office of Women's Health (OWH) offers [resources by state](#) for women in need of support, as well as resources to educate about [domestic or intimate partner violence](#) — including steps women can take to protect themselves and their loved ones.
