Did you know that every two seconds someone in the United States needs blood? Or that winter months make it extremely difficult to collect the necessary amount of blood and platelets needed to supply hospitals? This January, the American Red Cross celebrates **National Blood Donor Month** and recognizes the lifesaving contribution of blood and platelet donors.

National Blood Donor Month has been celebrated each January for nearly 50 years and coincides with one of the most difficult times to maintain a sufficient blood supply for patients.
