Mark Your Calendars – Downtown Spring Arts

Laurinburg hopes to become a Main Street community by July 2018. The NC Main Street program is a coordinating program through the national program, Main Street America. The goal of the Main Street Program is downtown revitalization with an emphasis on historic preservation. Downtown Laurinburg is full of historic characteristics and genuine people that want to see our community grow and thrive.

The program helps with technical assistance, locating funds, grant writing, training, revitalization planning, and so much more. Being involved in the Main Street Program means being a part of a movement in which a downtown becomes the heart of the city. The NC Main Street Program has experts that have years of experience and expertise in revitalizing downtowns. The program, in itself, is a community that works together to figure out what works and what doesn't for their respective cities. Getting into the NC Main Street Program is a privilege with which not every city is granted.

A thriving downtown is the ultimate goal. A thriving downtown provides a place for community events, shopping, dining, time with the family and much more. A downtown that prospers serves as the heart and core of a city. This is a great opportunity to make a collaborative effort to continue to develop our downtown into the core of our city.
